

Benefits of Membership

Membership of the world stainless association has unrivalled benefits

Introduction

worldstainless is a not-for-profit research and development association which was founded in 1996 as the International Stainless Steel Forum.

Its primary roles are to undertake stainless steel industry beneficial tasks that are better coordinated centrally in the fields of

- Promoting industry and material sustainability benefits
- Conserving resources and promoting the circular economy
- Providing economic and industry-leading statistics
- Support industry health & safety needs and developments
- Outlining market development and expansion opportunities
- Maintaining brand reputational positioning
- Materials education

Vision

Sustain our world's future with stainless steels.

Available benefits

Sustainability

Raw Materials

Fellowship Programme

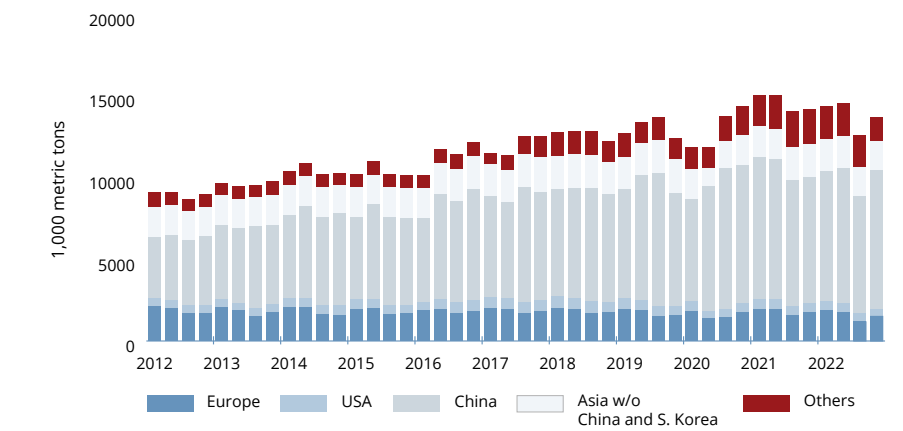

Market Development

Industry Health & Safety

Education

Economics & Statistics

Brand Defence

Enquiry Handling

Your Business Development Partner

Compelling support and guidance primarily in three focused areas

Sustainability

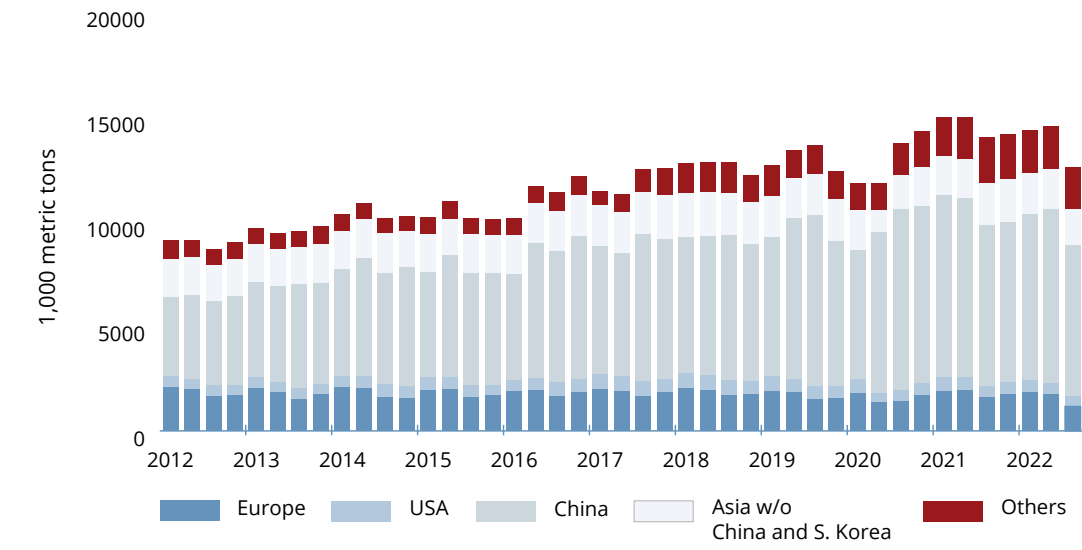

Unique promotional materials covering the sustainable and life-cycle credentials (cost + emissions) of stainless steels and competing materials at application level.

Market Development

Robust guidance on new market opportunities for stainless steels
Market development work is member driven.

Economics & Statistics

Unique and unrivalled data covering both global economics and industry-related statistics.

Your Industry Support Partner

Unrivalled industry support in three business critical areas

Raw Materials

Clear guidance focused on increasing recycled content and improving end-of-life scrap collection. Support from Raw Materials suppliers about their decarbonization programs.

Industry Health & Safety

Co-operative programs with worldsteel involving best-practice sharing, site auditing and free webinars on key safety issues.

Brand Defence

Provision of defence materials in response to clear threats to the reputation and/or future usage potential of stainless steels.

Your Employee Development Partner

Opportunities to develop your employees' skills and knowledge with ease

Fellowship Programme

Opportunities to develop talented member employees through remote and/or Brussels-based secondments to worldstainless.

Education

A wealth of technical education packages plus free educational webinars and free on-demand presentations.

Enquiry Handling

Enquiry handling facility providing bespoke responses to technical, sustainability and operational questions.

Additional Benefits

Automatic worldsteel membership at no additional cost (worldsteel.org).

Free access to Team Stainless projects

Team Stainless is a cooperative comprising the Nickel Institute, the International Molybdenum Association (IMOA), the International Chromium Development Association (ICDA) and the world stainless association (teamstainless.org).

Networking opportunities.

The annual conference of worldstainless is held each year, normally in May. The conference brings together the heads of the world's major stainless steel enterprises and national and regional associations. Approximately 90 chairmen, chief executive officers and other senior managers of worldstainless member companies attend.

Membership types

Company members

- Producers of stainless steels and alloy tool steels
- Rerollers of stainless steels and alloy tool steels

Associate members

- Downstream OEMs, fabricators and distributors

Affiliated members

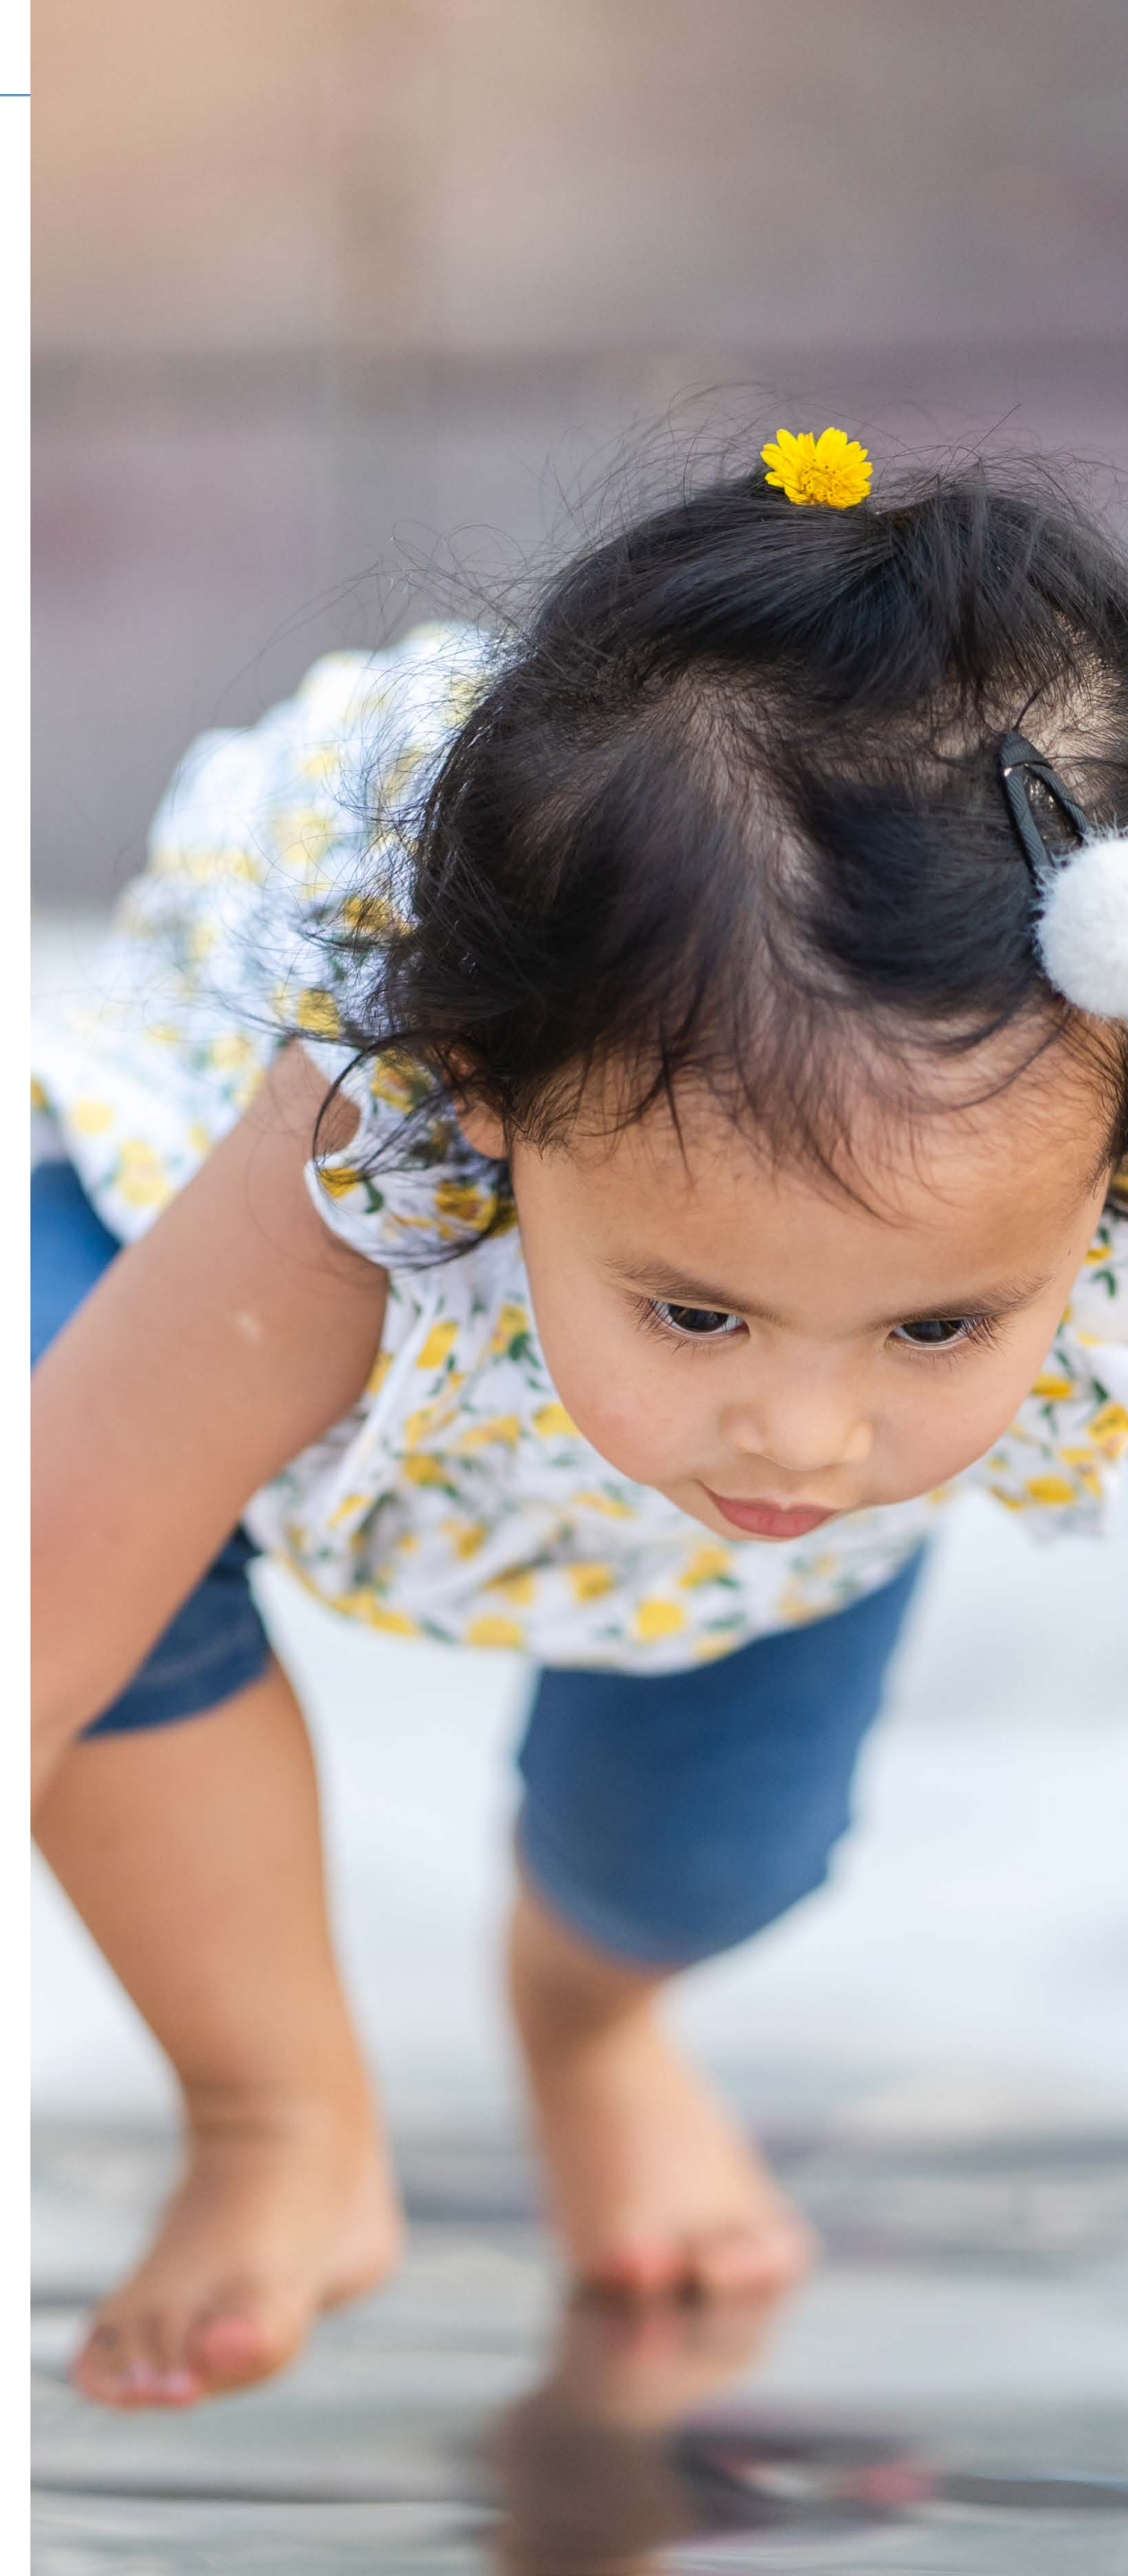

- Any association or federation of stainless steel OEMs, fabricators or distributors
- Any technical society or institute who are concerned with matters affecting the stainless steel industry

How to apply for membership?

The admission of new worldstainless members shall be made by application to the Secretary-General, who will submit the application for approval by the worldstainless Board.

Please direct your inquiries about membership to Tim Collins, Secretary-General (collins@worldstainless.org)
